COMMESSIVAN IN THE THIRD DISTRICT,-Tee Republican press in the 3d district are almost unanimously in favor of the re-election to Congress of their present faithful representative, Mr Billinghurst. His district contained more votes than any other in the Union, and gave him a maiceity of 4 763 in 1854. It contained by the last census 229,569 inhabitants, and will give as heavy a Republican majority we believe as almost any other district in the Union.

The facts are, that the slave population of the South form only a basis of representation in regard to the number of inhabitants required to entitle a district to a member of Congress; and perhaps the same in reference to State officers.—This basis is so unequal, as compared with Wisconsin, that slavery to the Southern States is an element of political weakness, rather than political structure.

The fact is that the Save basts operates worst of all in the count in the Electoral College, and it gives South Carolina 6 members of Congress. and of course 9 Electors.

Take the case of South Carolina. in 1659, that state had a free population of 233,521, and 384.720 slave. Adding three fifths of the slaveto the count, gave that state a representative label diverging branches, at both earls, is not less population of 514,859, entitling it to 6 members of longress.

Wisconsin, meanwhile, having a conclution of 305.538, all free, was entitled to but three representatives in Congress. Talk about slavary being an "element of political weakness!" Why, at this moment the slaves of the South, by the operation of this basis of representation, furnish over twenty roses to their mesters, and from South Carolina, such beings as Brooks and Keitt are sent to play off their prants before high bea-
